

Job Description:

We are looking for a talented and experienced UX/UI Designer to join our team. As a UX/UI Designer, you will be responsible for creating intuitive and visually appealing user interfaces for our web and mobile applications. You will work closely with our product managers and development team to understand user needs and translate them into engaging design solutions.

Responsibilities:

- > Collaborate with product managers and developers to understand user requirements and business goals.
- > Create wireframes, mockups, and prototypes that effectively communicate design concepts.
- > Design user interfaces that are intuitive, functional, and visually appealing.
- > Conduct user research and usability testing to gather feedback and iterate on designs.
- > Work closely with frontend developers to ensure design implementation matches the original vision.
- > Stay up-to-date with the latest design trends, tools, and technologies.
- > Advocate for the user throughout the design process and champion usability best practices.

Requirements:

Bachelor's degree in Design, Human-Computer Interaction, or related field.

Proven experience as a UX/UI Designer or similar role.

Proficiency in design tools such as Sketch, Adobe XD, Figma, or similar.

Strong portfolio showcasing your design process and projects.
